Your adviser is your link to University academic units. S/He will help you prepare your course schedule at the beginning of every semester, monitor your academic performance and advise you on all academic matters. S/He can also help you select a major and act as a career guide.

You are strongly urged to seek the help of your adviser when you have problems. The earlier you start to remedy a problem the easier it is to cure.

It is strongly recommended to check your e-mail periodically for messages from your adviser since most of your contact and scheduling of appointments with the adviser is through e-mail.
