

Find articles in peer reviewed journals?

The terms academic, scholarly, refereed and peer-reviewed are often used interchangeably to describe journals that use some kind of reviewing process to verify the scholarship of articles submitted for publication.

I- How to know if a journal is peer-reviewed?

From the AUB homepage go to **Jafet, Engineering, and Science (University Libraries)**, under **Find** click on **Databases**

- Connect to **UlrichsWeb Directory**
- Type the journal title in the Quick Search box. Submit the search.

- Look for the “peer-reviewed” symbol  next to the journal title
